PROFILE

First year computer science major with experience programming in applications outside of school through participation in FIRST robotics events. Experience in working in technical fields with similar structures through experience as a lab assistant in an electrical engineering lab. With a love for problem solving and developing solutions for complicated problems through an analytical and methodical approach. Ensuring that anything made is something of high quality to take pride in.

WORK EXPERIENCE

Lab Assistant

February 2023 - August 2023

Phase One Engineering
